EDUCATION

- Netaji Subhas University of Technology (NSUT)** 2021 - 2025
B-Tech in Computer Science and Engineering , Cgpa - 8.03
- DLDV Model School** 2020 - 2021
CBSE - Class XII , **Aggregate - 96.8%**
- DLDV Model School** 2018 - 2019
CBSE - Class X , **Aggregate - 94.8%**

WORK EXPERIENCE

- KEYSIGHT TECHNOLOGIES | Software Developer Engineer** Mar'25 - Present
- Contributing to the development of high-performance test and measurement platforms (**M8070B, M8110A**) using C++, C#, .NET, and WPF.
 - Participating in **architectural design discussions**, focusing on building scalable and extensible plugin-based systems.
 - Working across system layers including UI, backend services, and hardware interaction to enhance overall product functionality.
 - Collaborating with global **cross-functional teams** to deliver robust, maintainable, and production-grade software solutions.
- FRACTAL | Software developer Intern** Dec'24 - Feb'25
- Built a staffing **demand forecasting** model using historical hiring data and advanced feature engineering with ML model, achieving **91% accuracy** for proactive workforce planning.
 - Developed an **AI-integrated DLP dashboard** that automates classification of **2000+** daily alerts via Forcepoint API, reducing manual effort and enhancing security response.
- GENPACT | Software Developer Intern** June'24 - Aug'24
- Led automation initiatives in **Net DevOps**, using Itential , a tool based on **Python** and **Ansible**, resulting in a **25%** reduction in manual tasks.
 - Enhanced operational efficiency through **network automation** solutions.
 - Designed and developed numerous **workflows** on the Itential platform to automate repetitive network tasks, such as configuration management and network monitoring
- CS FOR ALL and SCALER ACADEMY | Teaching Assistant (TA) Intern** Nov'23 - June'24
- Provided assistance to hundreds of students in resolving their queries pertaining to **data structures** and algorithms, C++, JAVA, OOPS, with an overall rating of **4.8/5**.

TECHNICAL SKILLS

- Programming Languages** : C/C++(Advance) , Python(Intermediate), C#(intermediate), JAVA(Beginner),
- Development** : HTML/CSS, JavaScript, Bootstrap, Express.js, Node.js, React.js, Next.js, TypeScript, .NET, WPF, Spring Boot, Docker, Kafka.
- Database Management** : MongoDB, MySql, Postgres, Prisma
- Other** : DBMS, OS, OOPS, Git, System Design

TECH PROJECTS

ROZGAR HUB :

- Tech Stack** : TypeScript, Next.js, Neon PostgreSQL, Prisma, Tailwind CSS, ShadCN UI, NextAuth, Nodemailer, Google Analytics
- Built a **full-stack job portal** with three role-based flows (Seeker, Employer, Admin), **OAuth2 authentication** (Google, GitHub), email verification, and two-factor authentication using NextAuth and PostgreSQL.
- Developed **AI-powered job recommendations** by parsing uploaded resumes to extract skills from a **150+** skill dictionary, scoring and ranking jobs based on skill overlap and experience match, improving job relevance by **~40%**.
- Implemented end-to-end application tracking with **4-stage status workflows** (Pending → Reviewed → Accepted → Rejected), automated **email notifications** via Nodemailer, and an admin dashboard tracking 13+ platform-wide metrics with job approval management.
- Built advanced job search with **6+ filter support** (salary, location, remote, type etc.), server-side pagination, bookmarked jobs.

AERIO :

- Tech Stack** : Java, Spring Boot, Apache Kafka, MongoDB, PostgreSQL, Keycloak, Google Gemini AI, React, Material UI, Docker
- Architected a **microservices-based** fitness tracking platform with **6 Spring Boot services** (Gateway, Config Server, Eureka, User, Activity, AI) with Keycloak OAuth2 authentication and JWT validation at the Gateway layer.
- Implemented **event-driven AI** pipeline using **Apache Kafka** - Activity Service publishes events consumed by AI Service, which generates personalized recommendations via Google Gemini API.
- Developed a responsive React dashboard featuring real-time analytics, personal best tracking, and **CRUD operations** with toast notifications.

GENICHAT :

- Tech Stack** : Next.js, React.js, TypeScript, FastAPI, SupaBase, ShadcnUI
- Crafted a dynamic **chat interface** using the Shadcn UI library, closely resembling **ChatGPT's** functionality.
- Implemented features such as immediate display of user inquiries and **AI replies**, text input section for posing questions, and fetching/displaying past interactions upon user login.
- Incorporated Supabase for **user authentication**, allowing new users to sign up via email/password, and securely maintaining user sessions

FRIENDIFY :

- Tech Stack** : HTML, CSS, JavaScript, React.js, Material UI , MongoDB, Node.js, Express.js (**MERN Stack**)
- Built a social media website with comprehensive functionalities including image upload capabilities and like/dislike features for user interaction.
- Added secure **user authentication** with login and registration features.
- Designed a real-time **chat application** to facilitate seamless communication between users.
- Enhanced user experience by integrating Light/Dark mode options, offering flexibility and personalization.

ACHIEVEMENTS AND AWARDS

- Achieved a **global rank of 1,601** out of **25,000+** participants in **Meta Hacker Cup 2024**, awarded a **Meta T-shirt** for performance. 
- Semi-finalist** among **5 lakhs+** participants in **Flipkart grid - 5.0** | Software Development Track
- Selected for Amazon ML Summer School 2023** out of **50,000+** applicants
- Winner** out of **40,000+** teams in **Ode2Code** | Coding Competition by Xiaomi
- Achieved **Global rank 14** out of **30,000+** participants in **Leetcode Biweekly contest 154** and **Global rank 3** in **Codechef starters 163 div-1**
- Solved **1800+** questions on **Leetcode**  with **Guardian (2600+)**  rating in **Contests** and **500+** questions on **GFG**
- Master (2200+)** on **CodeForces**  and **6 star** on **Codechef (2400+)** 
- Achieved **All India Rank 4** in Graph Coding Challenge by **Algo University**
- Finalist** among **2 lakhs+** participants in **TechGig CodeGladiators** | Coding competition

POSITIONS OF RESPONSIBILITY

- IEEE NSUT and IOSD NSUT** | Technical Society of NSUT July'21 - present
Served as **Joint Secretary** and **Core Committee Member** respectively, overseeing operational and administrative functions within the society.
- MOKSHA' 22** | Annual Cultural fest of NSUT Oct'2022
Contributed as a member of the **Event Management department**, actively involved in organising and executing various cultural events.
